**Career objective:**

After spending a few years in the tourism sector, I decided to take a new career path and became interested in programming. I took a one year course in web development and I have just graduated from a Certificate of Higher Education (CertHE). I am currently looking for a junior web developer position in order to put in practice what I have just learnt. My main skills are HTML5, CSS3, JavaScript, jQuery, PHP and MySQL. Samples of my previous work can be seen on my website.
